

MICHAEL & KYLIE

"I drift away when I'm with you." – By My Side, INXS

They were a new sensation, the original delinquents. It was 1990 and nothing could touch them: he was charm personified and hell-bent on her corruption, she his suicide blonde – ready, willing and more than able. Byron-esque, she called him, her very own artist's way. Together, they left all behind in their wake, made you wish for your own life of endless nights and restless mornings, for someone to drift away with, your very own love devastation.
